State of Minnesota

*Building Permit
Technicians
Association*

Minnesota Building Permit
Technicians is an accredited member
of the
International Code Council.

Setting the Standard for Building Safety

Membership inquiries may be obtained
by contacting the current MBPTA
Officers.

"The goal of the Minnesota Building Permit Technicians Association is to provide, promote, and support education, networking, professionalism, and certification of its membership."

History

Minnesota Building Permit Technician Association was established in 1997. We became an official chapter of ICC in 2003. This organization includes staff working within Building Code Information, Building Inspections and in other Government agencies. We meet six times a year. As a way to accommodate members we move the meetings to centrally located areas so it is convenient for all members to attend.

Our speakers consist of Building Officials, Building Inspectors, Motivational Speakers, and others. MBPTA mails or e-mails all members and non-members a newsletter informing them of our next meeting date, location and any other pertinent information on our organization.

Officers:

Our five Officers are as follows: President, Vice President, Secretary, Treasurer I, and Treasurer II.

Committees:

MBPTA has working committees such as the Education Committee, By-laws and Planning Committee. We also have representation on the State Disaster Committee and the State Education Advisory Committee. We are always looking for more volunteers to serve on these committees.

Education:

MBPTA promotes education in College Certification and ICC Certification. We also offer training at our monthly meetings, Annual School and other seminars throughout the year by MBPTA and ICC chapters.

College Certification & Course Information:

If you would like information regarding the Building Permit Inspection Technician program, you can visit:

Inver Hills Community College website at www.inverhills.edu

North Hennepin Community College website at www.nhcc.edu/schedule/
